

## THE IRANIAN ATTACK ON AMERICA

What if the constant stream of pro-Palestinian protests is really an attack on America? That is a question now in the news and it is based on a leaked memo from the Iranian Revolutionary Guard. Essentially, the pro-Palestinian protests are part of a complex and broad based terrorist plot to undermine American support for Israel and to damage America economically and socially.

The recent protests shutting down major highways and bridges in San Francisco, Chicago, New York City and other cities are not spontaneous. The activities of Muslim women and female sympathizers in these protests is not an accident. (it is assumed that Americans tend to be more lenient when it comes to the arrest and prosecution of women.)

The Biden administration will not call these pro-Palestinian protests terrorist attacks because they would have to use federal law enforcement and even the military to stop terrorism on American streets.

Special courts would have to be established to try and incarcerate pro-Palestinian leaders working with Iran. Long prison sentences for the most serious of federal offenses would be needed. Incarceration would have to be in special prisons - possibly outside of the country in a place like Guantanamo Bay.

Of note, the attacks are ongoing and are intended to create ever increasing chaos. We are at war whether we like it or not, and that war has Iranian connections at a minimum.
