#### **Important Items**

Last week we had a tutorial on how to use Facebook. Bring your phone/tablet/laptop this week to get more info on establishing and using social media.

On February 13, the **Supreme Court of Virginia** issued an order allowing a proposed constitutional amendment on mid-decade congressional redistricting to proceed to a statewide referendum scheduled for April 21. The high court agreed to hear the appeal on an expedited basis, with briefs due in March and April, meaning voters can decide on the amendment—which would enable Democrats to implement new maps favoring them in 10 of Virginia's 11 congressional districts—while the court later determines its ultimate legality. We need to defeat this Amendment. Get more info at [Virginians for Fair Maps](#)

#### **Some good news from Richmond:**

- HB 886 (companion to SB 359), which would have legalized euthanasia for terminally ill adults with less than six months to live failed in the House Committee on Courts of Justice. The committee voted via voice vote to carry it over (table it) to 2027,
- Home School and Private School parents protested HB 359, which threatened the autonomy of private and faith-based schools by imposing public-school-style requirements on any school accepting even one student with public tuition assistance. The bill was effectively killed, carrying it over to the 2027 session.
- Parents pushed back on HB 614, which embedded identity politics into history lessons and testing. The bill was reduced to a commission study—proof that showing up makes a difference.

#### **In other General Assembly news:**

- Gun control measures: A sweeping package advanced significantly, with the House passing bills like HB 217 (assault weapons ban, large-capacity magazine restrictions, and limits on possession by those under 21) over GOP objections; companion Senate bills (e.g., SB 749 on assault firearms prohibition) passed the Senate (21-19 vote), including expanded gun industry liability, stricter storage rules, and domestic violence-related restrictions.
- "Affordable Virginia" Agenda: More than half of the proposals passed one chamber by early February, including HB 2 (reducing heating/energy costs for low-income residents, but there is no free lunch), HB 220/SB 630 (improved renter protections with no protections for landlords), SB 669 (curbing predatory pharmacy benefit managers to lower drug prices, with unanimous Senate support).
- Confederate-related bills: SB 636 (directing removal of remaining Confederate statues from Capitol Square with no replacements identified (like Monument Blvd) passed Senate and moved to House), HB 167 (ending tax exemptions for certain Confederate organizations, passed House), and HB 1344 (eliminating special license plates for Robert E. Lee or Sons of Confederate Veterans, advanced in committee).
- Cannabis: Bills to establish a retail recreational marijuana market (e.g., HB 642/SB 542) advanced through committees with amendments, despite Democratic splits on penalties for illegal sales/possession; related resentencing relief for prior convictions also progressed in Appropriations committees.
- The Born Alive Abortion Survivors Protection Act was defeated in the Senate Education and Health Committee. The House version had been defeated earlier in the session.
- House Bill 542, which would have required individuals seeking abortions to receive written information about "safe haven" baby boxes for anonymously surrendering newborns, was effectively killed in a House subcommittee.

**In James City County:** JCC staff presented a budget to the Supervisors that would raise our \$263.7 million operating budget by \$31.2 million or 11.8%. The assessments rose by, wait for it, 11.8% showing that the budget process remains broken. The County looks at how much revenue it might get and builds the budget to fit.

Because Property Taxes don't cover the entire budget, County Administrator Stevens has proposed options to cover any shortfalls:

- Raise the real estate property tax rate, which is 83 cents per \$100 of assessed value.

- Raise the meals tax, currently at 4%. Counties are allowed to charge up to 6% by state code.
- institute an admissions tax for entertainment venues. Reports are that Senator Danny Diggs, is pushing legislation in the general assembly to allow James City and York counties to charge such a tax.

An option to cut spending was not apparently proposed.

**In WJCCRC:** At this writing, a Mass Meeting is scheduled for Saturday, February 21, at the Williamsburg Regional Library, 515 Scotland Street. Registration begins at 10:00am and ends at 10:30am (all those in line at 10:30am will be allowed to register) for the following purposes:

Woodfin or Patricia Williams at 123 Bulifants Blvd Williamsburg, by Noon on February 16, 2026. The form may be mailed OR hand-delivered, but post marks do not govern

**Cardinal Ridge Development:** Larry Pfhal and Jean Romadka have started a petition to stop the Cardinal Ridge development (1,006 homes, apts, townhomes) on the Eastern State property. Petition · Over 500 people have signed the petition so far. Access the petition [here](#).

VIP MEET & GREET (PREFERRED SEATING): \$125 |

We want to make noise in both Social Media and the Legacy Media: Counter leftist news articles, Letters to the Editor (LTE) and LastWord entries critical of Republicans in general. We need to speak out on what is happening. It's easy --

- LastWord entries (75 words or less) can be emailed to lastword@vagazette.com. VG has established a policy that they will only accept comments on local issues.
- LTEs (250 words or less) can be emailed to letters@vagazette.com or submitted to Daily Press [here](#)
- LTEs for Williamsburg Watch (500 words or less) can be emailed to digby@williamsburgwatch.com

Keep the message polite and on point. You can call out candidates, point out the logic flaws of VG/WW articles, react to LTEs or LastWords, explain why you are voting your way; the choice is yours.

Don't know what to say or how to say it? How about:

- Educate and persuade voters about the Constitutional Amendment(s) coming in April.
- Board of Supervisors voted unanimously to **raise our property taxes by 21%** last cycle and may vote to raise them 11+% this year.
- Ask the School Board why they are **subsidizing failure** by giving 50's for assignments not turned-in instead of enforcing standards. Ask them to focus on the lack of recovery in testing scores after COVID.
- Board of Supervisors is ramming through a **\$189M+ County Admin Center** (not including the cost of the roundabouts and roadwork to support the new office structure or interest) plus a **\$50M** (or \$25M) library plus road improvement.
- Board of Supervisors is **raising our water/sewer rates by 57% over 5 years**
- JCC Board of Supervisors is exploring **raising the meals tax another 2 cents**. Tax on restaurant meals would be almost **13%**.
- School admin wants to **raise the school budget despite flat enrollment**.

If you want to address other issues or just want ideas, email BreakfastClubWMBG@gmail.com. We have lots of ideas.

## 2026 Planning Dates

Apr 14th (Projected): JCC Board of Supervisors will get public input on a tax increase of about 10%. Last cycle was 21% increase. The cycle before was 10%.

Initial indications are that the property assessments will rise 10%. Following their history, they will take the whole tax increase again to fund the Megacenter and increased school funding requests (despite declining enrollment).

Apr 21st: Special Election to Gerrymander Virginia.

May 12th (Projected): Supervisors will vote to approve the 10% tax and spending increase.

June 2d: Primary Day (Could be moved to Aug 4th, with early voting starting June 19th, if the April Referendum is conducted). There might be a primary for Warner's Senatorial seat.

June 27th: "USA 250: Patriotism in Public" – an America 250th Anniversary rally held by Inflection Point Virginia at the Williamsburg Courthouse lawn. More info as we receive it.

November 3d: Election Day
