

I wanted to thank everyone who spoke at last night's meeting, who showed up in support of those who spoke, those who have sent emails to the School Board/Superintendent, those who have spoken to me privately, those who were praying for me/School Board, and anyone else I've failed to include in the above. You have no idea how truly grateful I am for your support and time in defending me in support of our children.

As I said last night, I was raised to do what I believe is right, even if I am the only person doing so. But with your support, I know I'm not alone. And with your support, I will keep asking the tough questions, I will keep the students' best interest in my votes, and I will not back down from any name-calling from others. Thank you again for everything you've done to support me. God Bless you all.

Please feel free to share with others as I know there are many more people whom I should be thanking.

Have a great day.

Mike Hosang

Here is the YouTube link for the April 16 WJCC School Board meeting featuring the verbal battles between the Patriots and the Marxists. Michael Hosang (Stonehouse elected) was slandered publicly during and after the March meeting by Andrea Donnor (W'burg City appointed).
