

Dear Friends and Neighbors,

Trump Accounts are live! You can jumpstart your child's financial future today by registering for a Trump Account.

These accounts were created by the Working Families Tax Cuts to help the next generation plan for their financial future now. Any child under 18 with a Social Security number is eligible for an account. Parents or legal guardians can open and manage accounts on behalf of their children.

Funds can be accessed without penalty when the child turns 18 for qualified expenses like education, a first home purchase, or starting a business. Withdrawals may be subject to restrictions and would be taxed at ordinary income rates.

Overview:

- Eligible children receive a \$1,000 federal contribution
- Families can contribute up to \$5,000 annually
- Parents can now manage accounts directly through the new app
- You can register on the Trump Account mobile app, which is now available in the Apple and Google app stores

**Hear it from a VA-01 Mom:** "As a mom-to-be, the new Trump accounts will help my baby achieve financial success. With an initial investment and additional contributions from family, compound growth will help my child thrive. I thank Congressman Wittman for supporting these accounts and helping my family create a lasting legacy." – **Sarah Webb**
